EXPERIENCE

PeraPinoy

Founder, CTO, & Lead Software Engineer

Baguio City, Philippines

July 2024 – Present

- Founded a startup, became a CTO and lead software engineer, and became one of the startup incubators of our university. Lead the diverse group of 3 members in our team and spearhead the development of our MVP of a fintech app.
- Implement and integrate PeraPinoyGPT, an AI-powered chatbot utilizing Google AI/Gemini APIs and SDKs, to provide personalized financial advice and support and enhance the user experience for our Filipino users, including a dashboard of daily budget and expense summary with a linechart, budget and expense tracking, commodity forecasting, expense alerts, savings reward systems, financial forums, and an AI-assisted optimized grocery/shopping list.
- Utilize Neon Console for managing our PostgreSQL database and Drizzle ORM for type-safe, efficient database queries, ensuring seamless performance and scalability, and Clerk Authentication for easy to log in with Apple ID, Github, and Google.
